1. Identification

Product identifier: MILL-RIGHT® V Green Fluoroelastomer

Other means of identification:

Recommended use: Sealing Element

Recommended restrictions: Maximum Service Temperature should not exceed 450°F

Manufacturer/Importer/Supplier/Distributor information

Manufacturer:

- Company name: Garlock Sealing Technologies, LLC
- Address: 1666 Division Street, Palmyra, NY 14522, United States
- Telephone: M-F 9:00AM-4:00PM 315-597-4811, FAX 315-597-3039
- Website: www.garlock.com
- E-mail: GSTSDS@garlock.com
- Contact person: Michael McNally
- Emergency phone number: 315-597-4811

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards: Not classified.

Environmental hazards: Not classified.

OSHA defined hazards: Not classified.

Label elements:

- Hazard symbol: None.
- Signal word: None.
- Hazard statement: The mixture does not meet the criteria for classification.

Precautionary statement:

- Prevention: Observe good industrial hygiene practices.
- Response: Wash hands after handling.
- Storage: Store away from incompatible materials.
- Disposal: Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC): None known.

Supplemental information:

Based on available information; under normal conditions of use this product is not expected to release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and is not expected to pose a physical hazard or health risk to employees. Based on this and its form, the product meets the definition of an “Article”. “Articles” are outside the scope of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Other components below reportable levels 10 - < 20  

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation
No specific intervention is indicated as the product is not likely to be hazardous by inhalation. If exposed to fumes from overheating or combustion, move to fresh air. Consult physician if symptoms persist.

Skin contact
The product is not likely to be hazardous by skin contact, but cleansing the skin after use is advisable.

Eye contact
Rinse with water. Get medical attention if irritation develops and persists.

Ingestion
No specific intervention is indicated, as product is not likely to be hazardous by ingestion. Consult a physician if necessary.

Most important symptoms/effects, acute and delayed
Direct contact with eyes may cause temporary irritation.

Indication of immediate medical attention and special treatment needed
Treat symptomatically.

General information
Following First Aid Instructions as outlined. If symptoms persist seek medical attention.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
None known.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Hydrogen fluoride fumes emitted during a fire can react with water to form hydrofluoric acid. Wear neoprene gloves when handling refuse from fire.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Wear appropriate protective equipment and clothing during clean-up.

Methods and materials for containment and cleaning up
No special methods normally required. If dust is generated see Section 7.

Environmental precautions
Not applicable.

7. Handling and storage

Precautions for safe handling
Avoid contamination of cigarettes or tobacco with dust from this material.

Conditions for safe storage, including any incompatibilities
For optimal shelf life store in cool and dry location. Prevent exposure to ultra-violet (UV) light, direct sunlight or strong fluorescent lights. Do not store near devices, which produce ozone (O3).

8. Exposure controls/personal protection

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**

General ventilation normally adequate.

**Individual protection measures, such as personal protective equipment**

- **Eye/face protection**
  
  As generally good practice, safety glasses with side shields are recommended when handling this product to prevent eye contact with particulate matter.

- **Skin protection**
  
  - **Hand protection**
    
    When handling hot material, use heat resistant gloves. Neoprene gloves are recommended when handling refuse from a fire or packing that has been heated in excess of 500° F. For prolonged or repeated skin contact use suitable protective gloves.

- **Other**
  
  Not normally needed.

- **Respiratory protection**
  
  Use a particulate filter respirator for particulate concentrations exceeding the Occupational Exposure Limit.

- **Thermal hazards**
  
  Wear appropriate thermal protective clothing, when necessary.

- **General hygiene considerations**
  
  Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
9. Physical and chemical properties

Appearance
- Physical state: Solid.
- Form: Sealing Element
- Color: Green
- Odor: Slight.
- Odor threshold: Not available.
- pH: Not Applicable
- Melting point/freezing point: Not available.
- Initial boiling point and boiling range: Not Applicable
- Flash point: Not Applicable
- Evaporation rate: Not Applicable
- Flammability (solid, gas): Not available.
- Upper/lower flammability or explosive limits
  - Flammability limit - lower (%): Not Applicable
  - Flammability limit - upper (%): Not Applicable
  - Explosive limit - lower (%): Not available.
  - Explosive limit - upper (%): Not available.
- Vapor pressure: Not available.
- Vapor density: Not available.
- Relative density: Not available.
- Solubility(ies)
  - Solubility (water): Not Soluble
  - Partition coefficient (n-octanol/water): Not Applicable
- Auto-ignition temperature: Not available.
- Decomposition temperature: Not available.
- Viscosity: Not Applicable
- Other information
  - Specific gravity: 2.04

10. Stability and reactivity

Reactivity
- The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability
- Material is stable under normal conditions.

Possibility of hazardous reactions
- No dangerous reaction known under conditions of normal use.

Conditions to avoid
- Keep away from heat, sparks and open flame.

Incompatible materials
- Incompatible or can react with finely divided metal powders (e.g. aluminum and magnesium), molten alkali metals, and potent oxidizers like fluorine and related compounds like chlorine trifluoride. Contact with incompatibles can cause fire or explosion. Strong bases.

Hazardous decomposition products
- Composition of by-products from the result of a fire or thermal decomposition will vary depending on the specific conditions. Hazardous gases/vapors include hydrogen fluoride (HF), carbonyl fluoride, hydrogen iodide, lowmolecular weight fluorocarbons and oxides of carbon.

11. Toxicological information

Information on likely routes of exposure
- Inhalation: No adverse effects due to inhalation are expected.
- Skin contact: No adverse effects due to skin contact are expected.
- Eye contact: Direct contact with eyes may cause temporary irritation.
- Ingestion: Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics

Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity

Toxic and corrosive hydrogen fluoride may be liberated above 500 F, or from smoking tobacco or cigarettes contaminated with dust. These vapors can irritate the eyes, nose, throat, and lungs. Lung effects may be delayed for several hours.

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation

Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation

Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

Respiratory sensitization

Not a respiratory sensitizer.

Skin sensitization

This product is not expected to cause skin sensitization.

Germ cell mutagenicity

Due to partial or complete lack of data the classification is not possible.

Carcinogenicity

In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that “carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs.” (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.)

IARC Monographs. Overall Evaluation of Carcinogenicity

Carbon Black (CAS 1333-86-4) 2B Possibly carcinogenic to humans.
Chromium II Oxide (CAS 1308-38-9) 3 Not classifiable as to carcinogenicity to humans.
Crystalline Silica (CAS 14808-60-7) 1 Carcinogenic to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Crystalline Silica (CAS 14808-60-7) Cancer

US. National Toxicology Program (NTP) Report on Carcinogens

Carbon Black (CAS 1333-86-4) Known To Be Human Carcinogen.
Crystalline Silica (CAS 14808-60-7) Known To Be Human Carcinogen.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure

Not classified.

Specific target organ toxicity - repeated exposure

Not classified.

Aspiration hazard

Not an aspiration hazard.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

* Estimates for product may be based on additional component data not shown.
Persistence and degradability  No data is available on the degradability of this product.
Bioaccumulative potential  No data available.
Mobility in soil  No data available.
Other adverse effects  No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal instructions  Review federal, state/provincial, and local government requirements prior to disposal.
Local disposal regulations  Dispose in accordance with all applicable regulations.
Waste from residues / unused products  Dispose in accordance with all applicable regulations.
Contaminated packaging  Not applicable.

14. Transport information
DOT  Not regulated as dangerous goods.
IATA  Not regulated as dangerous goods.
IMDG  Not regulated as dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code  Not applicable.

15. Regulatory information
US federal regulations  All components are on the U.S. EPA TSCA Inventory List.
This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Toxic Substances Control Act (TSCA)
TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)  Not regulated.
CERCLA Hazardous Substance List (40 CFR 302.4)  Not listed.
SARA 304 Emergency release notification  Not regulated.
OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)  
Crystalline Silica (CAS 14808-60-7)  
- Cancer
- lung effects
- immune system effects
- kidney effects

Superfund Amendments and Reauthorization Act of 1986 (SARA)
SARA 302 Extremely hazardous substance  Not listed.
SARA 311/312 Hazardous chemical  No (Exempt)
SARA 313 (TRI reporting)
